Hand Made Crafts from the Heart of Northumberland

Sloe Crafts

Sloe Crafts is based at Lorbottle West Steads Farm, near Thropton on the edge of the Northumberland National Park.

Sloe Crafts strives always to produce unique and interesting products to the highest of standards, using local resources where possible and taking inspiration from the farm and the beauty of the local region.

Sloe Gin is Sloe Crafts' signature product and has been made for generations by the Farr family using sloes gathered from local hedgerows (though it's a Northumberland tradition that if you come across a good crop of sloes, you don't let on!).

This delicious recipe, together with the more recent inventions of Damson Gin, Raspberry Vodka and Cherry Brandy are produced naturally at Lorbottle West Steads and contain no artificial additives of any kind.

SLOE GIN

A delightful, traditional country tippie made from the juice of freshly pressed Blackthorn berries (Sloes) blended with the finest English Gin and a selection of secret ingredients described in an ancient recipe passed down through generations of the Farr family.

Sloe Gin, Raspberry Vodka Damson Gin & Cherry Brandy from Sloe Crafts are available in 250ml or miniature bottles as well as mixed gift packs. All varieties make a truly indulgent ice cream dressing!

DAMSON GIN

A sweet fruity combination of freshly gathered Northumbrian Damsons and the best English Gin - Sure to be a favourite with everyone - Cheers!

RASPBERRY VODKA

Combining freshly squeezed raspberries with top quality vodka - and the Sloe Craft's magic blending secrets, produces a truly wonderful fruity treat.

Just the thing for sipping with ice, or mixing long with tonic on those lazy Summer afternoons!

CHERRY BRANDY

A light but warming blend of deliciously ripe cherries and the finest French brandy. Sloe Craft's Cherry Brandy Liqueur is our very own, "Northumbrian" version of King George IV's favourite tippie - We're sure he'd approve!
